E-Commerce Solutions

Fully Functional E-commerce Website

Complete shopping cart, checkout, and order tracking setup for a seamless customer experience.

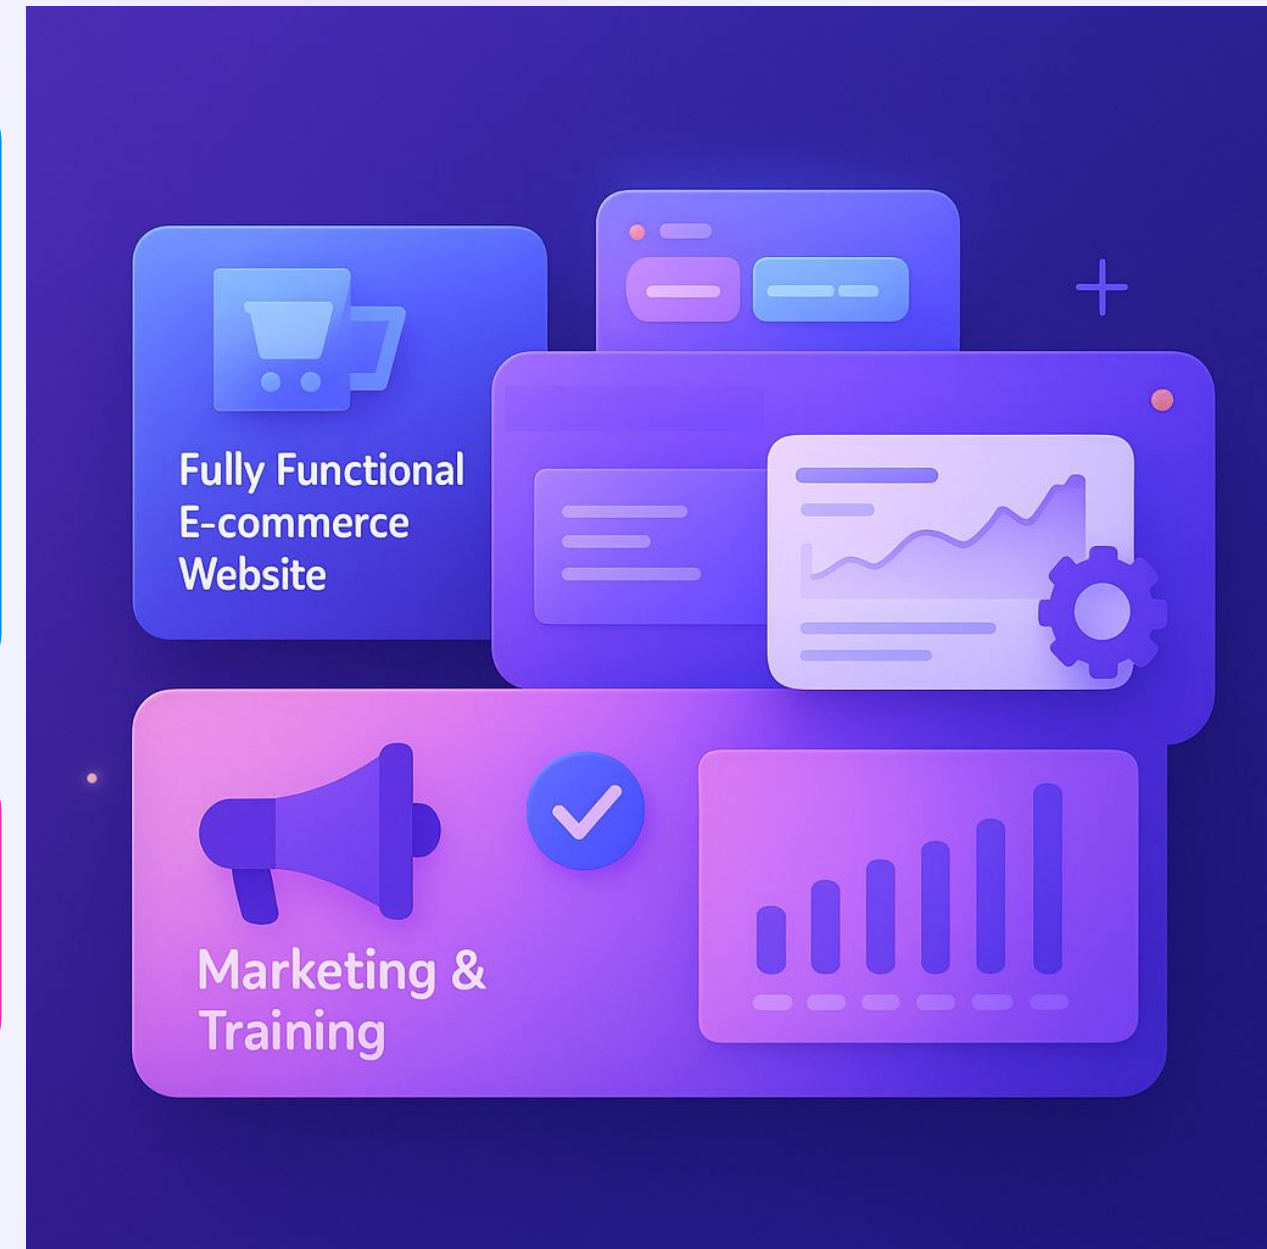

Payment & Product Management

Integration with popular payment gateways (Razorpay, Stripe, PayPal) and support for up to 50 product listings with bulk upload capability.

Marketing & Training

Basic product SEO, cart abandonment email setup, and comprehensive training for store management.

Our e-commerce package is ideal for entrepreneurs selling products or services online who need a reliable, professional online store with all essential features.

Brand Builder Package

Professional Website

Up to 5 pages of custom-designed, responsive web content that showcases your brand identity.

3 Months Social Media Management

Content calendar creation, graphic post creation (12-15 posts/month), and engagement boosting strategy.

Campaign Launches

Two festive or event-specific campaigns to drive engagement and conversions.

Monthly Analytics

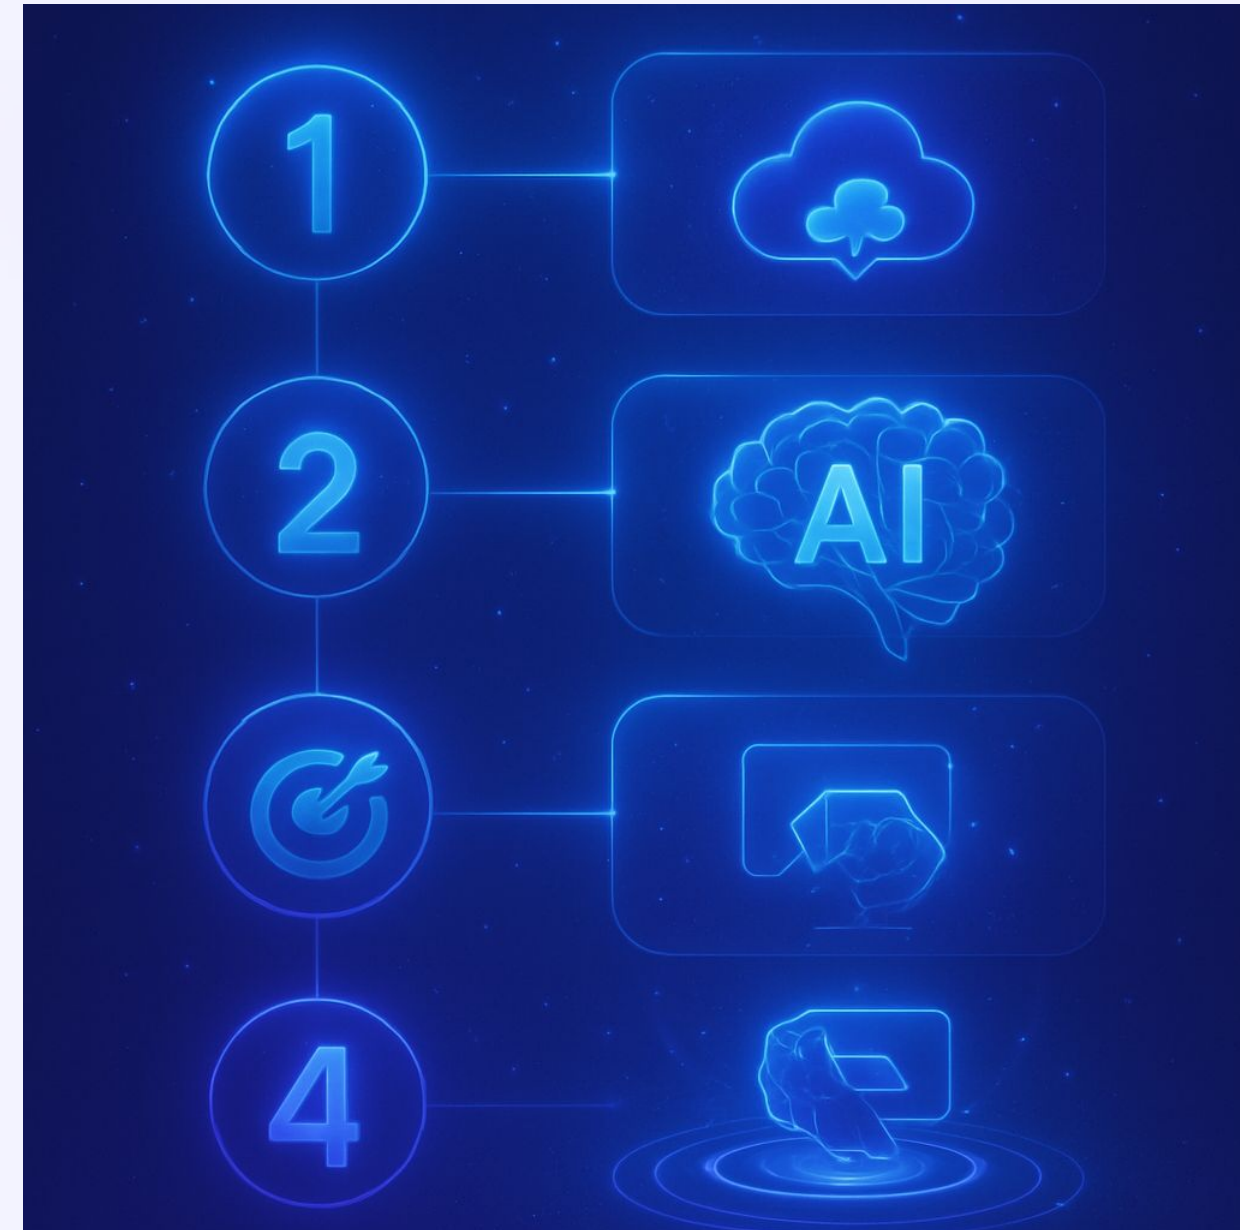

Detailed reporting on performance metrics to track growth and optimize strategy.

At **1500 SGD**, this comprehensive package is ideal for brands who want a complete digital presence, combining both website development and social media management.

SaaS Starter Kit

- 1 Ready-to-deploy SaaS Framework**
Complete with authentication, basic dashboard, and CRUD functionality to accelerate your development process.
- 2 Hosting and Deployment Guidance**
Expert advice on setting up your infrastructure on AWS, Digital Ocean, or other platforms to ensure optimal performance.
- 3 Basic Go-To-Market Strategy**
Comprehensive overview of customer acquisition channels, pricing strategies, and positioning to help you launch effectively.
- 4 Landing Page & Signup Setup**
Custom-designed conversion-focused pages based on your specific SaaS idea to start capturing leads immediately.

Priced at a minimum of **2000 SGD**, this package is ideal for SaaS founders looking to launch MVPs quickly without sacrificing quality or reinventing the wheel.

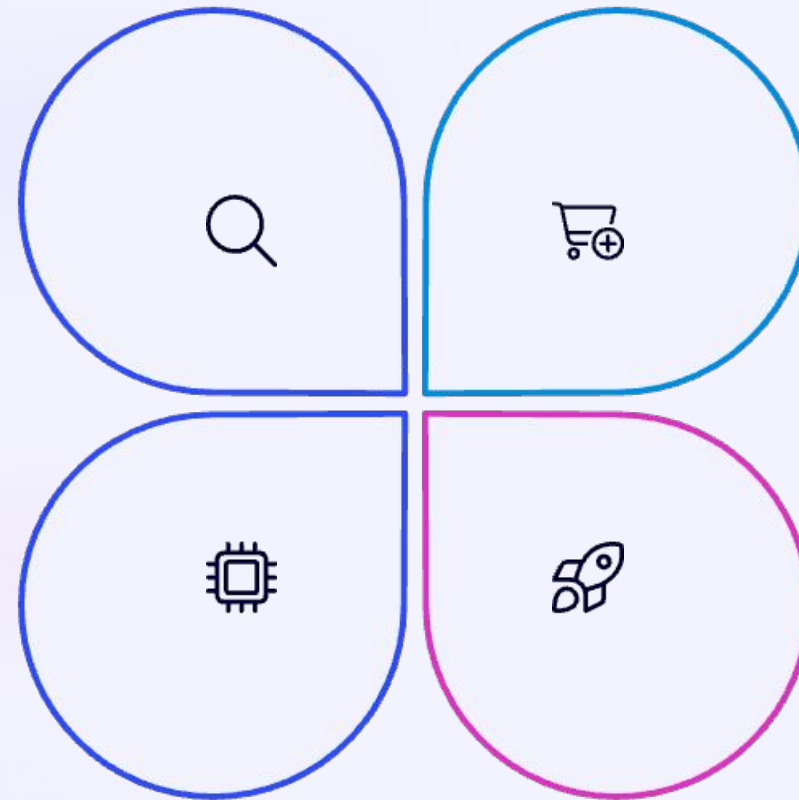

Strategy Consultation

Product Roadmapping

Define clear milestones and development priorities to guide your product evolution.

Technology Stack Selection

Expert recommendations on the most suitable technologies for your specific needs.

Market Strategy Advice

Insights on positioning, competitive analysis, and market penetration approaches.

Launch Planning

Step-by-step guidance for successful product or service introduction to the market.

Our 90-minute 1-on-1 strategy consultation provides focused guidance on your most pressing business challenges. Ideal for entrepreneurs and business leaders seeking strategic clarity before building or scaling their ventures.
